Clement's discussion section and explanations of class concepts helped so much. He outlined the models of the class and answer questions clearly while covering tons of material.
The best TA I've ever had. He answers emails quickly and can answer most questions that students have. Simply the best TA section I've ever had. His sections were organized, clear, and helped me understand the big topics in class that were important. NO WEAKNESSES
Clement was fantastic and was a big contributor to me understanding the material
Best TA I have ever seen, no weaknesses whatsoever. Went above and beyond to help students understand course topics in the class. Thanks Clement!
Great TA!
The TA sections were the best and key to understanding the class he made the material more understandable than the lectures and was really helpful overall. No weaknesses.
Best TA I had at Northwestern. It is not an exaggeration that I would fail this class without discussion notes
Clement, you're the best TA I ever had at Northwestern. I really appreciated how you often did way more than explain a few sample problems but helped us grasp the overarching structure of the material. Thank you!
Best TA I've ever met. Passionate, and cared for the success of each student. Effectively translated unintelligible lecture material into comprehensible discussion. Clement was the sole reason the class material made any sense at all. He essentially retaught each lecture on Fridays, with most of the class learning 90% of the course material from him.
His review sessions were really good, much better than other TAs who just solve questions/psets. Also is super helpful after class etc helping with pset. Maybe the best TA I had at NU for econ.

Clement is a phenomenal TA. He goes above and beyond to respond to questions emailed to him in a timely manner. He held a recorded Zoom bonus discussion before each test to show us how to do practice test questions, which was hugely educational. He consistently took time out of his life to help us – Clement goes above and beyond. He made the class fairer, too, because he could sense when certain questions posed by Christiano in HWs were too ambitious relative to what we had learned in class
No weakness. Good teacher
One of the best TAs I've had, thanks for a great quarter!
Clement was great in every category, could not have asked for a better TA.
Honestly the most helpful TA I have ever had, a great grader and more than anything made everything make sense in a very structured way that really helped after the lectures. Good sense of humor about the rambles in the main lectures and quick to answer any questions in general in a very clear manner.
Very good at answering questions. Always come to lecture. One of the best TAs I've had
Clement is super smart and helpful.
He works really hard to cover the important material in the sections and answer questions. I wish there were more handouts or practice exercises.
one of the best TAs I've ever had! he made everything extremely clear and was always super helpful in preparing for homework assignments too!
Helped clarify class material like models very well!

Clement is the best TA I've had in my three years here at NU, one of the most intelligent and well-versed PhD students in the economics department.
