

Immunotherapy Assessment Core (IAC) / Translational & Experimental Skin Testing & Immune Tracing (TEST-IT) Core Presents:

IMMUNE ASSESSMENT SEMINAR SERIES:

Applications in Multiplexed Drug Discovery and Biomarker Research by Meso Scale Discovery (MSD)

November 19th, 2020, Thursday, 11:00 AM to Noon Central Time

[Zoom Link](#)

The IAC and TEST-IT core facilities are hosting a monthly seminar series to highlight technologies available to you in the core. This month, **Shane M. Bemiller, Ph.D.** and **Jason R. Bader, Ph.D.**, from MSD will speak about multiplex detection and quantification of secreted biomarkers using an electro-chemiluminescence and carbon electrode detection system. We will also present data generated in the core facility.

Shane M. Bemiller, Ph.D.

Jason R. Bader, Ph.D.
