

Immunotherapy Assessment Core (IAC) / Translational & Experimental
Skin Testing & Immune Tracing (TEST-IT) Core Presents:

IMMUNE ASSESSMENT SEMINAR SERIES:

Reaching new levels of biological insight with single cell and
spatial multiomics

February 18th, 2021, Thursday, 11:00 AM to Noon

[Zoom Link](#)

The IAC and TEST-IT core facilities are hosting a monthly seminar series to highlight technologies available to you in the core. This month, **Spence Fast, MS**, from 10x Genomics will speak about single cell gene profiling using the Chromium platform in our core facility and Visium Spatial solutions. We will also present data generated in the core facility.
