

Northwestern University
Pancoe Auditorium
28th July 2014

Time	Event
10.30-11.00	Morning coffee
11.00-11.10	Opening remarks , Fiona McKenzie, Emily Weiss and Seth Marder
11.10-11.50	Tobin Marks, Northwestern University Interface Science of Soft Matter Photovoltaics
11.50-12.30	Scott Barnett, Northwestern University High-Efficiency Electrical Energy Storage Using Reversible Solid Oxide Cells
12.30-13.10	Ralph Nuzzo, University of Illinois Nanomembranes and Soft Fabrication Methods for High Performance, Low Cost Energy Technologies
13.10-14.00	Lunch
14.00-14.40	Emily Weiss, Northwestern University The Behavior of Electrons at Nanoscopic Organic/Inorganic Interfaces
14.40-15.20	Dmitri Talapin, University of Chicago Title to be confirmed
15.20-15.50	Afternoon break
15.50-16.30	Joseph Hupp, Northwestern University Energy-relevant Metal-Organic Framework Materials
16.30-17.10	Michael Wasielewski, Northwestern University Singlet Exciton Fission in Molecular Solids Relevant to Organic Photovoltaics
17.10-17.20	Closing remarks
