Online Teacher-Course Evaluation

Interpretation guidelines

The value "6" represents "Strongly Agree" while the value "1" represents "Strongly Disagree". Keep in mind that students completing their course evaluations does not necessarily mean they answered each question. As a result, for some items, you may notice that the total number of responses is lower than it is for others. In these cases, the student decided to skip this question. Students also may have skipped the open-ended question, thus leaving you with fewer responses in this section.

OPEN-ENDED QUESTIONS

What are the primary strengths and weaknesses of the teaching assistant?

Comments
Strengths: Thorough Weakness: None.
Very good TA
Very knowledgeable and willing to help
Santiago responded quickly to a question I had on Problem Set #1. Thanks brother!
Good grasp of overall content.
Santiago is very enthusiastic and a great guy. I did have trouble following his explanations occasionally. The problem was probably me.
Santiago's tutorials were very helpful in learning the course content. He clearly is passionate about econ and that translated into his teaching. Very nice, extremely bright and surely an asset to those around him.
Engaged and helpful
his strengths are the passion on the subject. his weakness is a bit of a struggle to express complex concepts
Santiago explains concepts very clearly to a group of people with widely varying backgrounds and skill sets. I feel like we are equipped with the knowledge we need for exams, but also to understand the concepts going forward. Great TA, and nice to see him with us in Miami again.
Santiago did a great job!!!
Santiago was clearly engaged and provided clear advice and explanations to the students. He had a good handle on the material and could quickly explain the topic. One area to improve in tutorials is he could have a dialogue of "Well, what do you think?" or "Why?" before answering. Additionally, it may be a benefit for students who are not watching the session live if he will repeat the question and say out loud what he is pointing to on the slides.
great TA!!
Repeated his responses several times.
He knows a lot about the topics, and he does a great job.
He needs to improve his clarity and exposition.
Great all around
Very affable and wanting to help the students – everything was done in advance so more just walking through the answer key as opposed to demonstrating methodology...
Santiago was very committed to our learning. He was very aware of us and our questions from class.
