## **Online Teacher-Course Evaluation**

#### Interpretation guidelines

The value "6" represents "Strongly Agree" while the value "1" represents "Strongly Disagree". Keep in mind that students completing their course evaluations does not necessarily mean they answered each question. As a result, for some items, you may notice that the total number of responses is lower than it is for others. In these cases, the student decided to skip this question. Students also may have skipped the open-ended question, thus leaving you with fewer responses in this section.
