

How to make STEMM more inclusive

500 Women Scientists is a nonprofit organization with the mission to make science open, inclusive and accessible by fighting racism, patriarchy and oppressive societal norms. We use a unique solutions-based approach to drive inclusion and equity in STEMM and society.

gaze-discover brilliance

Search or sign-up to gaze—a global open-access search directory featuring over 15000 women and gender-diverse folks in STEMM from over 140 countries.

Fix the Gap

Fix the Gap is an open-access database to normalize compensation for STEMM professionals and bridge the gender pay gap starting with honoraria and speaking fees.

Inclusive meeting guide

Use our hands-on guide to organize and host inclusive meetings, events and conferences in a way that centers marginalized communities.
